Subject: Packaging Labels for MA Samples
Importance: High

John, The packaging labels have been taken to UPS and will be mailed by Next Day Air—Early AM Services—which should arrive at your office at 8:30 on Wednesday October 15, 1997. Please let me know if you do not receive this package. The labels are in sets of 50 (10 labels per page) which give extra labels (100) per TSM.

Is it possible for each of your TSM's to call me when they have mailed their package from the county? If I am not in my office they can leave me voice mail. We need to alert our receiving department as to when they can expect the product to start arriving at Philip Morris.

Thank you and I sincerely hope the delay of the packaging labels did not impose a great hardship for you or the sales force.

"Liz" Chambers
